SYMBOLS USED REGULARLY IN CATALOG

The following symbols appearing on revised pages are to be interpreted as follows -

- * Indicates Motorcraft Sales Part Number
- # Indicates some form of identification such as part number, stamping, paint stripes and tags.
- ★ Symbol indicates part is not supplied for service for the following reasons -

  a. Part is superseded and replaced as indicated in the description column of text.
  b. Part can be improvised as indicated in the description column of text.
  c. Due to its function there would be little or no demand.

NOTE - ALWAYS REFER TO THE DESCRIPTION COLUMN OF THE TEXT FOR POSSIBLE SUBSTITUTION, OR FOR MATERIAL SPECIFICATIONS AND DIMENSIONS WHICH MAY BE HELPFUL IN OBTAINING THE NON-SERVICED PART LOCALLY.

GENERAL INSTRUCTIONS

This Lincoln-Mercury Car Master Parts Catalog contains replacement parts and accessories information for Bobcat, Capri, Comet, Cougar, Lincoln, Mark IV, Mark V, Mercury, Meteor, Monarch, Montego, Versailles, and Zephyr for model year 1973/ for U.S. and Canadian built vehicles. Unique Canadian part numbers and application have been identified by symbol (♠) and footnoted. Unique U.S. part numbers and application have been identified by symbol (☆) and footnoted. Use this "text" catalog in conjunction with the "illustration" catalog, form FPS 8095-B.

Refer to the Index on page 1 for a listing of the items appearing in the General Information Section.

HOW TO USE THIS CATALOG

There are three ways of finding part numbers

1. By Part Name
2. By Illustration
3. By Identification

Should an inquiry be received for a fuel pump for a 1973 Lincoln-Continental -

BY PART NAME

A. Refer to the Chassis Parts Alphabetical Index.

B. Refer to the alphabetical nomenclature and find the part name "Pump assy. (fuel)". The group number listed is 9350.

C. Refer to group number 9350 and locate the year 1973 in the "YEAR" column. Find the vehicle catalog code "D" (for Lincoln-Continental) in the "MODEL/RESTRICTIONS" column.

D. The part number shown is D0VY 9350-A.

BY ILLUSTRATION

A. Refer to the Illustration Catalog (form FPS 8095-B) to the divider marked "FUEL".

B. Refer to the index immediately behind the divider and find the illustration titles for 1973 D (Lincoln-Continental).

C. Under the heading "D (LINCOLN)" find the "Fuel pump and filter" illustration for the 1973 Lincoln-Continental.

D. Refer to the illustration designated (on page 1 of Illustration Section 93) and find the group number for the fuel pump assy. to be 9350.

E. Refer to group number 9350 in this Text Catalog and locate 1973 in the "YEAR" column. Find the vehicle catalog code "D" (for Lincoln-Continental) in the "MODEL/RESTRICTIONS" column.

F. The part number shown is D0VY 9350-A.

BY IDENTIFICATION

Certain parts and most major assemblies are identified with a part number shown on an attached tag or plate or on the part itself. Reference to identification numbers is made throughout the catalog and cross reference charts are included in some sections to provide immediate knowledge of the service part number when the identification number is known. All identification information other than charts will be preceded by the symbol (#).

IMPORTANT - Identification tags and plates must be retained with the part or assembly with which they are originally supplied.

R.H. and L.H. PARTS

The driver's side is the left hand side of the vehicle and determines whether such parts as fenders, lamps, etc. are right or left hand.

Most Right Hand and Left Hand parts are listed in adjacent columns as shown in the following examples.

YEAR	MODEL/RESTRICTIONS	PART NUMBER		DESCRIPTION		QTY.
73	A(53,57,71),Y(53,71)	(RH) D3MY 5320124-A	(LH) D3MY 5320125-A			1
73/74	D(65)	(RH) D3VY 6520124-B	(LH) D3VY 6520125-B			1

MOTORCRAFT SALES PART NUMBERS

To facilitate the stocking and handling of those service parts which are assigned both service part numbers and Motorcraft Sales Part Numbers, the Motorcraft Sales Part Numbers are preceded by an asterisk (*) and are usually located at the beginning of the description column.

For example, refer to Section 96, group 9601. The service part number for a carburetor air cleaner element used on a 1973 Cougar with an 8 cyl. 351-2/B engine is D3ZZ 9601-A and the Motorcraft Sales Part Number is *FA-574. In the catalog this item will be shown as D3ZZ 9601-A *FA-574.

YEAR	MODEL/RESTRICTIONS	ENGINE CYL.	ENGINE C.I.D.	PART NUMBER	DESCRIPTION	QTY.
73	F	8	351-2/B	D3ZZ 9601-A	*FA-574

FORMATS

Various formats are used throughout this catalog to coincide with the normal procedure for selecting the affected part numbers. Most areas of the catalog use a format arranged in the order shown below.

Column -

1. Model year
2. Type of vehicle or equipment within a specific model year
3. Quantity required per vehicle
4. Description, size, etc.
5. Complete part number

Formats peculiar to a particular area of the catalog are generally self explanatory. When necessary, instructions are shown at the beginning of the affected group. For instance, the various charts and parts list method of cataloging in the Carburetor Section are explained on Page 1 of Section 95.

EXHAUST SYSTEMS CERTIFICATION

"For their intended application as specified in this catalog, the exhaust system parts and systems listed for sale have been certified to be in compliance with the requirements of the rules of the Florida Department of Environmental Regulation (Chapter 17-18, Part III of the Florida Administrative Code), and the regulations of the California Highway Patrol (Chapter 2, Part 1052) for exhaust system certification."

EXPLANATION OF THE FORD PART NUMBERING SYSTEM

For greater convenience this catalog is divided into specific sections, such as brakes, front suspension, engine, transmission, etc. For example, FRONT SUSPENSION appears in Section 30, STEERING WHEELS in Section 36, REAR AXLE in Section 40, etc. The applicable exploded illustrations are contained in separate sections which are related to the Text Section numbers. For example, STEERING WHEEL Illustrations appear in Illustration Section 36 of the "Illustrations" Catalog, form FPS 8095-B

The part number groups, part names and the section numbers under which each is listed are shown on pages 8 thru 10 of the General Information Section.

In numerical listings, expanded group numbers will be considered to follow the same sequence as the regular group numbers from which they are expanded and are arranged in Catalogs as follows.

3538	3634
3C538	3A634

Illustrations contain group numbers only, therefore, it is necessary to refer to the group within this "text" catalog for complete applicable part numbers.

BODY PARTS GROUP NUMBERING SYSTEM

FOLLOWING IS A DIAGRAM OF THE BODY PARTS GROUP NUMBERING SYSTEM

• These five digits comprise the Body Group Numbers used throughout each body parts section.

PART NAME INDEX

Below are various major groups appearing in the Chassis and Body Sections of this Catalog. An Alphabetical Index for all chassis parts follows the General Information Section. A complete index of body parts is included at the beginning of the Body Section and a complete index of soft trim parts is included at the beginning of the Soft Trim Sections.

CHASSIS PARTS INDEX

MODEL YEAR APPLICATION

Model year application is indicated by showing the first year followed by a diagonal line to indicate continued usage in all subsequent years until the insertion of the last year of usage, which will then be shown after the diagonal line. If no diagonal line is shown, the part is applicable only to the year shown.

Example -

73	Indicates part used 1973 model year only.
73/	Indicates part used 1973 through subsequent model years.
73/74	Indicates part used 1973 through 1974 model years.

Note that Bobcat unit built from June 27, 1977 and identified on the Certification Label as "8" will be merchandised in Canada as 1978 models. As of this printing this car line will be merchandised in the United States as 1977 models until announced otherwise. Catalog entries for this unit will be listed as shown in the following example:

77	L	"Before 6/27/77"
77/78	L	"From 6/27/77 to 8/1/77"
77/	L	"From 8/1/77"

BODY TYPE CODES

Most body parts and some chassis parts are cataloged by Body Type Codes. A complete listing of body type codes is shown on pages 30 and 31 of this section. Similar body types are identified by the same code number. The body type suffix is used to identify a particular body type. For example, (Mercury) body type 53 is used as shown below -

A (53B)	Monterey 4 Door Pillared Hardtop
A (53F)	Monterey Custom 4 Door Pillared Hardtop
A (53H)	Marquis 4 Door Pillared Hardtop
A (53K)	Marquis Brougham 4 Door Pillared Hardtop
A (53X)	Marquis 4 Door Pillared Hardtop

Body type codes (less suffix) are shown in the model column of the catalog text or with illustration titles when all body types of a related group are affected. For example, when Body Type Code 53 is shown it includes 53B, 53F, 53H, 53K and 53X.

SOFT TRIM

Soft Trim parts are arranged in separate sections by car line catalog code within each model year i.e. 1973 Soft Trim Section A (Mercury), 1973 Soft Trim Section C (Comet), 1973 Soft Trim Section D (Lincoln-Continental), etc. To determine the complete part number of a trim part, it is necessary to know the "Trim Code" which is shown on the Certification Label of the vehicle (refer to pages 24 thru 34. Instructions for selecting soft trim parts are contained at the beginning of the Soft Trim area of this catalog.

ATTACHING PARTS (NUTS, BOLTS, ETC.) and LOCATOR CODES

Standard and utility hardware, such as bolts, screws, fittings, etc. are listed below the part with which they are used. To facilitate the stocking and handling of standard and utility parts by Ford Dealers, locator codes are preassigned by Ford Motor Company. The locator codes are shown in parentheses immediately following or below the standard and utility part numbers. For example, refer to Body Section 200 group 22800-1. The part number for a 5/18-18 x 1 1/2" screw-hex. head is 382623-S2 with the locator code (UU-52-AL) appearing at the beginning of the description column. In some charts, such as the Carburetor Parts List Charts in Section 95.1, 95.2, etc. the locator code will be shown next to or below the part number in the part number column.

LIQUID MEASURE

Most liquid measures listed in this catalog are in U.S. sizes and certain other liquid measures (unique to Canada) listed in this catalog are in Canadian sizes. The following chart provides an understanding and a translation of U.S. to Canadian and Canadian to U.S. sizes.

	1/2 Pint	Pint	Quart	Gallon
	(CAPACITY IN OUNCES)		(CAPACITY IN OUNCES)	
Canada	10	20	40	160
U.S.	8	16	32	128

Example - 5 U.S. quarts (160 ounces) equal 4 Canadian quarts (160 ounces) or 1 Canadian gallon.

D.S.O., F.S.O. or L.P.O. (SPECIAL ORDERS)

The District Code Number will appear in the D.S.O. space on the Certification Label for all units including regular production. Always furnish appropriate Certification Label information and D.S.O. Number if applicable when ordering parts not listed in the catalog. If the unit is D.S.O. F.S.O. or L.P.O. (Special Order), the complete Order Number will appear in the D.S.O. space in addition to the District Code Number.

HOW TO IDENTIFY 351 C.I.D. ENGINES

The following methods will help to identify the subject engines that are in use:

- Decal on Air Cleaner Cover
- Emission Control Systems Decal on Valve Cover
- 351C was last produced in 1974
- 351M introduced in 1975
- 351W introduced in 1969 in use through 1980

ITEM	351W	351C & M
Number of bolts attaching valve cover on exhaust manifold side	3	4
Type of Front Cover	Bolted to Cylinder Block	Cast as part of Cylinder Block
Thermostat Housing	Bolts horizontal and mounts to intake manifold	Bolts vertical and mounts to front cover
Fuel Pump	Attaching Bolts side by side (horizontal plane)	Attaching Bolts one above the other (vertical plane)

HOW TO ORDER PARTS

When ordering parts, always give the complete part number.

In the event the part number is not known, the following information should be included.

A. Complete description of part.

B. Model, year and body type.

C. Dimension, number of teeth, size, etc., if possible, rough sketch of part.

D. If applicable to engine, transmission, axle, steering, etc., specify type, such as 400 C.I.D. Automatic Transmission, Power Steering, etc.

E. Advise how shipment is to be made - Freight, Express, Air, Parcel Post.

ACCESSORY WEIGHT CHART for 1975 VEHICLES

When adding accessories, equipment, passengers and luggage to your vehicle, the total weight capacity of the vehicle or of the front or rear axle (GVWR, GAWR as shown on the vehicle Certification Label) must not be exceeded. See the listing below for the weight effect of the various accessories shown.

ACCESSORY	WEIGHT EFFECT (lbs.) TOTAL	FRONT AXLE	REAR AXLE

SAFETY STANDARDS CERTIFICATION LABEL - 1973/77

Located on the latch face of the left Front Door

The Certification Label includes -

1. Built date (e.g. 9/72) in upper left hand corner which indicates the month and year in which the unit was built.
2. Vehicle Identification Number (left half of first line) consisting of Codes which identify Model Year, Assembly Plant, Series, Engine and Numerical Sequence of Assembly (also shown in upper right hand corner).
3. Miscellaneous Vehicle Data (right half of first line plus second line) consisting of Codes which identify Body Type, Color of Exterior Paint, Trim, Transmission, Rear Axle Ratio and District (and D.S.O. number where applicable).

The codes shown below are listed on pages 28 thru 37

FIRST LINE (3Z44H500001) VEHICLE IDENTIFICATION NUMBER

"3"	---	1973 Model Year
"Z"	---	Built at St. Louis Assembly Plant
"44"	---	4 Door Pillared Hardtop
"H"	---	8 cyl. 351-2/B engine
"500001"	---	First Mercury Series Vehicle built at St. Louis Assembly Plant during Model Year.

OWNER CARD - TYPICAL

P-10234

Effective dates shown in the catalog, e.g. "Before 9/4/72" and "From 9/4/72" may be determined through interpretation of the build date shown on the owner card.

The numerical position of the build date represents the day of the month.

The alphabetical portion of the build date represents the month in which the unit was built.

For example - 04J Indicates

4th day of month

J - September

Refer to page 36 for a complete list of month codes and the corresponding month.

WARRANTY PLATE OR CERTIFICATION LABEL

(Refer to Pages 38 thru 41 for Capri Warranty Plate Information)

YEAR CODES

CERTIFICATION LABEL SHOWN

THE FIRST DIGIT OF THE WARRANTY OR VEHICLE IDENTIFICATION NUMBER IDENTIFIES THE MODEL YEAR OF THE VEHICLE.
THE FOLLOWING CHART LISTS THESE CODES AND THE CORRESPONDING MODEL YEAR.

Code - 3	Year - 1973
Code - 4	Year - 1974
Code - 5	Year - 1975
Code - 6	Year - 1976
Code - 7	Year - 1977
Code - 8	Year - 1978
Code - 9	Year - 1979

Note that Bobcat unit built from June 27, 1977 and identified on the Certification Label as "8" will be merchandised in Canada as 1978 models. As of this printing this car line will be merchandised in the United States as 1977 models until announced otherwise. Catalog entries for this unit will be listed as shown in the following example:

77	L	"Before 6/27/77"
77/78	L	"From 6/27/77 to 8/1/77"
77/	L	"From 8/1/77"

ASSEMBLY PLANT CODES

CERTIFICATION LABEL SHOWN

THE SECOND DIGIT OF THE WARRANTY OR VEHICLE IDENTIFICATION NUMBER IDENTIFIES THE PLANT AT WHICH THE VEHICLE WAS ASSEMBLED.
THE FOLLOWING CHART LISTS THESE CODES AND THE CORRESPONDING ASSEMBLY PLANT.

CODE	ASSEMBLY PLANT	CODE	ASSEMBLY PLANT	CODE	ASSEMBLY PLANT	CODE	ASSEMBLY PLANT
A	Atlanta	G	Chicago	P	Twin Cities	U	Louisville
B	Oakville	H	Lorain	R	San Jose	W	Wayne
E	Mahwah	J	Los Angeles	S	Pilot Plant (Allen Park)	X	St. Thomas
F	Dearborn	K	Kansas City	T	Metuchen	Y	Wixom
						Z	St. Louis

PRODUCTION EFFECTIVE DATES

The preferred method for identifying replacement parts for identical applications is to utilize physical differences between the parts, which are oftentimes denoted in the catalog under the description column. Occasionally it is necessary to reference the vehicle build date to determine which replacement part to order. The dates are shown in the text as "BEFORE" and "FROM" a specific date. The date shown in the catalog is the earliest tentative production incorporation date and therefore is subject to change. It is also possible that a production change which is effective at more than one assembly plant may be incorporated on different dates. For these reasons the productions effective date shown in the catalog should be considered as an approximate date.

1974	8/73	10/74
1976	11/74	12/76
1977	1/77	

* Build Date is identified on Warranty Plate as Calendar Year Code and Month Code. These codes are explained on the next page.

ENGINE CODES

NB - 122 C.I.D. (2000 cc or 2.0 Litre)
PX - 171 C.I.D. (2800 cc or 2.8 Litre)
UX - 159 C.I.D. (2600 cc or 2.6 Litre)
Y8 - 140 C.I.D. (2300 cc or 2.3 Litre)-8.7:/ compression ratio)
Y9 - 140 C.I.D. (2300 cc or 2.3 Litre)-9.1:/ compressor ratio)

TRANSMISSION CODES

B - Manual transmission (floor shift)
C - Automatic transmission (C4)
D - Automatic transmission (C3)

REAR AXLE RATIO CODES

B - 3.75 to 1
C - 3.89 to 1
L - 3.09 to 1
R - 3.22 to 1
S - 3.44 to 1

COLOR CODES (EXTERIOR PAINT)

Single digit code indicates solid color. Two digit code indicates solid color with vinyl roof cover. For a listing of these codes and the part number of the required paint refer to Paint Section

TRIM CODES

First digit indicates color. . . . . Second digit indicates type of fabric
Refer to the appropriate Soft Trim Section for a listing of these codes and the color and type of materials used in the Interior Upholstery.

COUNTRY of ORIGIN CODES

G - Germany

1979 CAPRI (Refer to pages 28 thru 37 for Warranty Plate Information)

ASSEMBLY PLANT CODES

A - Cologne B - Genk

VERSION

D - All Capri 1973/74
D - 64D (Base model) 1976/ (Full Fold Down Rear Seat)
P - 64P (Decor model) 1976 (Split Fold Down Rear Seat)
P - 64P (Decor model-Ghia badged) 1977/ (Split Fold Down Rear Seat)
T - 64T (Ghia model) 1976
S - 64S ("S" model) 1976

BODY TYPE CODES

EC - Two Door Sedan
61D - Three Door Fastback
61H - Three Door Fastback - Ghia

CALENDAR YEAR CODES

(First Digit of Date Code)

N - 1973
P - 1974
R - 1975
S - 1976
T - 1977

MONTH CODES

(Second Digit of Date Code)

Air conditioner kits	19B968
Antenna kit (radio)	18813
Ball kit (trailer hitch)	19F503
Bezel kit (A/C)	19C872
Carrier kit (luggage)	♦55100
Chassis assy. (radio receiver)	18806
Cigar lighter kit	15A044
Clock kit	15A000
Compressor kit (A/C)	19703
Condenser kit (A/C)	19708
Coolant recovery kit	8522
Cover kit (luggage carrier)	19B507
Cover kit (steering wheel)	3L600
Decal kit (safety standard certification)	♦20472
Decal kit-tire instructions (Dealer Recertification)	1532
Defogger kit (back window)	18397
Drive kit (A/C)	19B969
Fire extinguisher kit	19B540
Frame kit (license plate)	17A387
Game and table kit	♦279B76
Gauge (engine vacuum kit)	10B944
Guard kit (rear bumper)	17984
Guard kit (splash shield)	16A550
Heater assy. (block)	6A051
Hitch kit (trailer)	19D520
Horn kit	13800
KIT - refer to appropriate noun name For example	
Guard kit (splash shield)	16A550
Leveler kit (air)	5A589
Lock kit (rear door safety)	♦21850
Lock release kit (luggage compartment door remote control)	♦432A00
Mat (front floor)	♦13056, ♦13086
Mat (rear floor)	♦13106
Mat kit (front and rear floor)	♦13088
Mirror (vanity)	17A679
Mirror kit (inside rear view)	17700
Mirror kit (outside)	17696
Moulding kit (body side)	♦21048
Moulding kit (door outside rear edge)	♦20910
Oil cooler kit (transmission aux.)	7K177
Radio kit	18805
Reflector flare kit	19E500
Seat (child's safety)	19E535
Speaker and hardware kit (radio)	18819
Speaker kit (rear seat)	18875
Speaker kit (stereo)	18808
Speed control kit	9A818
Speedometer cable kit (speed control)	9A820
Tachometer kit	17A326
Tool and safety kit (highway)	19F515

♦ This is a Body group. Body group numbers are listed numerically following group 19B969.

PART NAME	GROUP NUMBER
Absorber (body bolt upper)	5B098
Absorber (front fender to cowl side sound)	16071–2
Accelerator assy.	9725
Accumulator hose assy. (A/C refrigerant line)	19C836
Actuator (backup lamp switch)	15540
Actuator (carb. feedback control)	9C908
Actuator (courtesy lamp switch)	13A786
Actuator kit (turbocharger)	9G488
Actuator (luggage compt. door open warning switch)	10C873
Actuator (P/S gear valve)	3812
Actuator (seat belt & ignition warning)	14A554
Actuator (steering column lock lever)	3E715
Actuator (trans. shift selector indicator)	7E123
Actuator assy. (brake skid control)	2B002
Actuator assy. (horn warning)	13A927
Actuator Assy. (illuminated entry)	13C718
Actuator assy. (P/brake release switch)	2B624
Actuator assy. (speed control)	9AB25
Actuator assy. (steering column lock)	3E723
Actuator kit (P/S control valve)	3783
Adapter (A/C evaporator air)	19C800
Adapter (A/C refrigerant line)	19D695
Adapter (A.T.C. evaporator air)	19C800
Adapter (air by–pass valve)	9H314
Adapter (brake master cylinder mounting)	2B286
Adapter (carb. A/cleaner inlet hose)	9E606
Adapter (carb. A/cleaner to intake tube)	9D608
Adapter (carb. choke control tube)	9C786
Adapter (connection vacuum hose brake booster)	2B276
Adapter (distributor base)	12A217
Adapter (eng. crankshaft to converter)	6381
Adapter (exhaust gas recirculating valve)	9P753
Adapter (exhaust air supply pump)	9G470
Adapter (front suspension lower arm)	3375–6
Adapter (fuel vapor purge tube to air cleaner)	9D692
Adapter (heater temperature control valve)	18K306
Adapter (heater windshield defroster outlet)	18A527
Adapter (intake manifold to deceleration valve)	9K495
Adapter (manifold inlet vacuum pipe to distributor)	9K442
Adapter (oil pressure gauge to cylinder block)	9D295
Adapter (power brake booster mounting)	2L248
Adapter (P/S pump outlet)	3E598
Adapter (rear axle shaft)	4A404–5
Adapter (speed control vac. valve actuator)	9C962
Adapter (seat belt interlock)	14K690
Adapter (thermostatic choke control inlet tube)	9C786
Adapter (tire inflation)	1705
Adapter (trans. rear pump)	7K220
Adapter (windshield washer hose)	17A612
Adapter assy. (A/C evaporator to plenum chamber)	19D740
Adapter assy. (alternator regulator)	10N300
Adapter assy. (eng. crankcase vent)	6A665
Adapter assy. (eng. oil filter)	6881
Adapter assy. (heater outlet duct)	18C387

LIQUID MEASURE

Most liquid measures listed in this catalog are in U.S. sizes; however, those measures which are specified for unique Canadian parts are in Imperial or Metric sizes.

The capacity in ounces and litres for both U.S. and Imperial measures are specified below:

	1/2 PT.	PINT	QUART	GALLON
Imperial	10 oz. (284.1 ml)	20 oz. (568.2 ml)	40 oz. (1.136 l)	160 oz. (4.55 l)
U.S.	8 oz. (236.6ml)	16 oz. (478.1 ml)	32 oz. (.946 l)	128 oz. (3.78 l)

CERTIFICATION LABEL SHOWN

THE CODE SHOWN ABOVE OR BELOW "COLOR" INDICATES THE EXTERIOR PAINT COLOR AND/OR VINYL ROOF COLOR OF THE VEHICLE. THE FIRST TWO DIGITS REPRESENT THE EXTERIOR PAINT COLOR. THE THIRD AND FOURTH DIGITS (TWO ALPHA CHARACTERS) IDENTIFY THE MATERIAL AND COLOR OF THE VINYL ROOF. IF THE VEHICLE IS NOT EQUIPPED WITH A VINYL ROOF, THE THIRD AND FOURTH DIGITS, IF PRESENT, REPRESENT THE ACCENT COLOR OF A TU-TONE PAINT OPTION.

NOTE: SPECIAL ORDER PAINTS WILL NOT REFLECT A PAINT CODE IN THE "COLOR" SPACE ON THE CERTIFICATION LABEL FOR IDENTIFICATION REFER TO THE SPECIAL ORDER NUMBER SHOWN UNDER THE "DSO" SPACE AFTER THE TWO DIGIT DISTRICT CODE.

CLEAR VISION AIDS

PART NUMBER	DESCRIPTION
E4AZ 19C507-A	Glass cleaner - - (12) 18 oz. aerosol cans
C9AZ 19550-A	Ford ultra clear windshield washer solution - - (12) 16 oz. cans
C9AZ 19550-B	Ford ultra clear windshield washer solution - - (12) 32 oz. cans

COOLING SYSTEM AIDS

PART NUMBER	DESCRIPTION
D6AZ 19A503-A	Cooling system fast flush (non acid) - - (12) 12oz. cans
E2FZ 19549-A	Ford Cooling System Fluid (permanent anti-freeze) - - (6) 1 gal. cans
E2FZ 19549-B	Ford Cooling System Fluid (permanent anti-freeze) - - 55 gal. drum
D9AZ 19558-A *RA-1	Protector pellets (cooling system) - - (2) Pellets percard - (24) cards per carton
E6AZ 19558-A *RA-2	Protector Powder (cooling system) - - (20) 3/4 oz. tubular plastic containers on a display carton
★D9AZ 19558-PAK *RA-1000	Protector pellets (cooling system) - - (2) cartons of (48) cards- (2) pellets per card, (1) fender cover-N.R. (7/85)

MOTOR OILS and LUBRICANTS

◇Premium motor oil grade ♦Super premium motor oil grade

PART NUMBER	DESCRIPTION
C4AZ 19D530-A	Lubricant (distributor cam) - - 1 1/2 oz. tube
C6AZ 19542-A	Brake and hydraulic clutch fluid (extra heavy duty)-for vehicles w/disc or drum brakes - - (24) 16 oz. cans
C6AZ 19542-B	Brake and hydraulic clutch fluid (extra heavy duty)-for vehicles w/disc or drum brakes - - (12) 1 qt. cans
C8AZ 19B546-A	Additive friction modifier (hypoid gear)-for locking rear axles - - (12) 4 oz. plastic bottles
D8DZ 19C547-A	Lubricant (for std. 3 and 4 speed trans. and manual transaxle) - - 5 gal. pail
C0AZ 19553-A	Silicone lubricant (jell type) - - 8 oz. tube
D7AZ 19553-A	Silicone lubricant - - 15 oz. aerosol spray can
D3AZ 19553-A	Lubricant (mini-vent window) - - 4 oz. plastic bottle
E2SZ 19553-A	Dry Film Lubricant-reduces friction resulting from metal to metal contact and helps provide corrosion resistance - - 4 oz. can
C3AZ 19578-A	Steering gear lubricant (life time) - - (4) 14 1/2 oz. cartridges
D8AZ 19578-A	Steering gear grease-for manual rack and pinion - - 1 lb. can
B7A 19579-C	Crankcase conditioner and rust inhibitor - - (12) 16 oz. cans
D9AZ 19579-C	Oil conditioner - - (12) 16 fl. oz. cans
* X0 5W30-DSP	Motor Oil (Super Premium)-5W30 - - 55 gal. (208.2l) drum -gas engines only
* X0 5W30-QSP	Motor Oil (Super Premium)-5W30 - - (12) 1 qt. (0.946l) cans -gas engines only
* X0 10W30-QP	Motor Oil (Premium)-10W30 - - (12) 1 qt. (0.946l) cans -for all gas engines & diesel engines exc. turbo
* X0 10W40-DSP	Motor Oil (Super Premium)-10W40 - - 55 gal. (208.2l) drum -gas engines only
* X0 10W40-QSP	Motor Oil (Super Premium)-10W40 - - (12) 1 qt. (0.946l) cans -gas engines only
* X0 15W40-DSD	Motor Oil (Super Duty)-15W40 - - 55 gal. (208.2l) drum -for gas and diesel engines
* X0 15W40-QSD	Motor Oil (Super Duty)-15W40 - - (12) 1 qt. (0.946l) cans -for gas and diesel engines
* X0 20W40-DP	Motor Oil (Premium)-20W40 - - 55 gal. (208.2l) drum -for all gas engines & diesel engines exc. turbo
* X0 20W40-QP	Motor Oil (Premium)-20W40 - - (12) 1 qt. (0.946l) cans -for all gas engines & diesel engines exc. turbo
* X0 30-DSD	Motor Oil (Super Duty)-30W - - 55 gal. (208.2l) drum -for gas and diesel engines
* X0 30-QSD	Motor Oil (Super Duty)-30W - - (12) 1 qt. (0.946l) cans -for gas and diesel engines
E0AZ 19580-A	Hypoid gear lubricant-for Ford design rear axles-with Traction-Lok use with C8AZ-19B546-A additive - - (12) 1 qt. (.946 litre) plastic containers with spouts
E0AZ 19580-B	Hypoid gear lubricant-for Ford design rear axles-with Traction-Lok use with C8AZ-19B546-A additive - - (6) 1 gal. (3.785 litres) plastic containers
E0AZ 19580-C	Hypoid gear lubricant-for Ford design rear axles-with Traction-Lok use with C8AZ-19B546-A additive - - 120 lb. (54.4 kg.) keg
D2AZ 19581-A	Speedometer cable lubricant - - 1 lb. can
★	Automatic Trans. Fluid - type "CJ"-use "DEXRON® II" for service
* XT 1-DF	Automatic Trans. Fluid - Type "F" -for Borg Warner, FMX, C3 and 1973/76 C6 A/T -for Ford CII P/S pump only -for Convertible Top Reservoir Fluid - - 55 gal. (208.2l) drum

Note: The aerosol products listed below do not utilize a chlorofluorocarbon propellant system.

MOTOR OILS and LUBRICANTS — Cont'd

◇Premium motor oil grade ♦Super premium motor oil grade

PART NUMBER	DESCRIPTION
* XT 1-QF	Automatic Trans. Fluid – Type "F" – for Borg Warner, FMX, C3 and 1973/76 C6 A/T –for Ford CII P/S pump only –for Convertible Top Reservoir Fluid – – (12) 1 qt. (0.946l) cans
* XT 2-DDX	Automatic Trans. Fluid–"DEXRON ® II" –for 1977/Ford C6,C4 and Jatco A/T only – – 55 gal. (208.2 litres) drum
* XT 2-QDX	Automatic Trans. Fluid–"DEXRON ® II" –for 1977/Ford C6,C4 and Jatco A/T only – – (12) 1 qt. (0.946 litres) cans
★ E4AZ 19582-A	Power Steering Fluid–for all P/S exc. Ford CII – – (48) 1 qt. long neck plastic containers–N.R.
E6AZ 19582-A	Power Steering Fluid and A/T type "F" fluid–use in P/S pumps requiring ESW M2C33-F type "F" A/T fluid can also be used to top-off A/T requiring type "F" fluid. Consult owners guide for proper application – – (12) 12 fl. oz. long neck plastic bottles
D9AZ 19583-A	Rubber lubricant (triple purpose) – – (4) 1 gal. containers–use to mount and demount tires, remove rubber squeaks, and clean rubber parts.
D7AZ 19584-A	Grease (polyethylene) – – 15 oz. spray can
D0AZ 19584-A	Grease (polyethylene) – – 4 oz. aluminum tube w/plastic cut off spout
C1AZ 19590-B	Lubricant (multi-purpose long life) – – (4) 14 1/2 oz. cartridges
C1AZ 19590-C	Lubricant (multi-purpose long life) – – 120 lb. keg
C1AZ 19590-D	Lubricant (multi-purpose long life) – – 25 lb. pail
C1AZ 19590-E	Lubricant (multi-purpose long life) – – (4) 5 lb. pails
D4AZ 19590-A	Lubricant (steering linkage) – – (4) 14 1/2 oz. cartridges
D7AZ 19590-A	Lubricant (disc brake caliper slide grease) – – (4) 4 oz. tube
E1AZ 19590-A	Speed control slip ring grease (str. whl. mounted) – – 8 oz. (.226 kg.) tube
D1RY 19592-A	Grease (disc brake lubricant)–for Capri disc brake squeal – – 125 gram tube

SEALERS and ADHESIVES

PART NUMBER	DESCRIPTION
D7AZ 19B508-A	Contact adhesive (gasket and seal) – – 16 oz. can w/brush
D9AZ 19C525-A	Adhesive (vinyl roof installation or replacement) – – 1 qt. can
E4AZ 19C548-A	Automatic Transmission Sealer – – (6) 11 fl. oz. (0.325l) containers
C0AZ 19552-A	Weatherstrip adhesive (light colored) – – (12) 5 fl. oz. tubes
8A 19552-B	Rubber cement (black) – – (12) 5 oz. tubes
B5A 19554-A	Perfect seal sealing compound – – 4 oz. can
C6AZ 19554-A	Metallic plastic (to repair cyl. front cover and cyl. block intake manifold) – – (1) can–metallic resin, (1) jar–hardening agent
D7AZ 19554-B	Perfect seal sealing compound – – (12) 13.2 oz. aerosol cans
C9AZ 19554-B	Sealer (liquid butyl)–black–for sealing butyl installed windshield and backlite – – 1 pt. can
D0AZ 19554-C	Sealer tape (tetrafluoroethylene)–used on bolt and studthreads to provide a positive liquid seal – – 1/2" x 288"
D7AZ 19554-C	Adhesive 414 Kit – used for repair of loose vinyl inserts to body side mouldings – consists of (5) .33 fl. oz. bottles of 414 adhesive and (1) 4 oz. aerosol can of accelerator
D9AZ 19554-B	Locktite minute bond adhesive kit 312–reqd. to attach rear view mirror brkt. – – consists of (20) one shot pkgs. of .01 fl. oz. (2.957 ml.) adhesive–.02 fl. oz. (5.914 ml.) accelerator
D9AZ 19554-C	Locktite Minute Bond Adhesive Kit 312 –req'd to attach rear view mirror brkt. – – consists of (10) one shot pkgs. of .01 fl. oz. (2.957 ml.) adhesive– .02 fl. oz. (5.914 ml.) accelerator
E0AZ 19554-A	Sealant (Locktite)–thread locker – – (10) .20 fl. oz. (6 ml.)
E0AZ 19554-B	Sealant–stud and bearing mount –stops loosening and leakage – – heavy duty thread locker – – (10) .20 fl. oz. (6 ml.) tubes
D8AZ 19554-A	Sealant–pipe (with teflon) – – 1.69 fl. oz. tube.
D9AZ 19554-A	Adhesive (A/C plenum chamber) – – 6 oz. can
E2FZ 19554-B	Ford thread lock 262–used to prevent vibration loosening of nuts, bolts or screws – – 0.34 fl. oz. (10 ml)
D6AZ 19560-A	Caulking cord – – (8) 80 ft. rolls-3/16"dia.
D9AZ 19560-A	Caulking cord (A/C plenum chamber)–rope sealer – – (8) 10 ft. rolls – – 3/16" dia.
C3AZ 19562-A	Sealer and filler (silicone rubber) – – 5 oz. tube–for vinyl top sealing, also for sealing engine cyl. head & block–white
D6AZ 19562-A	Sealer and filler (silicone rubber)–clear– 3 fl. oz. tube
D6AZ 19562-B	Sealer and filler (silicone rubber)–black– 3 fl. oz. tube
E3AZ 19562-A	Silicone gasket and sealant (RTV) – – 10.3 fl. oz. caulking cartridge
E2AZ 19562-A	Ford Gasket Maker–for use when specified in the replacement of gaskets and the sealing of flanges–not for use on oil pans, rocker covers and MTX trans. – – .85 fl. oz. (25 ml) syringe container

SEALERS and ADHESIVES — Cont'd

PART NUMBER	DESCRIPTION
E2AZ 19562-B	Ford Gasket Maker-for use when specified in the replacement of gaskets and the sealing of flanges-not for use on oil pans, rocker covers and MTX trans. - - 1.7 fl. oz. (50 ml.) tube
E6AZ 19562-A	Silicon Gasket Adhesive-used to seal silicone gaskets - - 8 fl. oz. (0.236L) can with brush
D2FZ 19562-A	Seal windshield and backlite glass-foam tape - - 1/4" x 5/8" x 13'
D2FZ 19562-B	Seal quarter window-foam tape - - 1/4" x 3/8" x 5'
D8RZ 19562-A	Windshield sealant kit-for windshield replacement on Capri vehicles
D9AZ 19562-A	Butyl tape kit - - "I" beam section (233")-for windshield replacement on 1979 vehicles (exc. Bobcat) prior to being licensed by dealer
D9AZ 19562-B	Windshield glass seal kit - - (5/16") round (233") incl. glass primer-For 1979 vehicles (exc. Bobcat)
E0AZ 19562-A	Windshield seal kit-urethane-for w/shields with urethane seal - - must be used with D9AZ 19562-A or B. For industrial use only

SPECIAL PRODUCTS

PART NUMBER	DESCRIPTION
* BB 14	Electrolyte (acid)-battery fluid - - 5 gal. container with hose
* BB 16	Electrolyte (acid)-battery fluid - - 1.5 gal. container
D7AZ 19A331-A *WA-10	Silicone Dielectric Compound - for distributor rotor tip and Duraspark ignition cable - - 3 oz. tube
D7AZ 19A501-A	Rust penetrant and inhibitor - - (6) 12 oz. aerosol can
D8AZ 19A501-A	Automatic choke cleaner-used to clean-free auto. choke, carb. linkage and manifold heat controls - - (12) 14 oz. aerosol cans w/snorkel
D7AZ 19515-A	Super Seal Anti-Corrosion Compound - (Sprayable) - - 16 gal.
E4AZ 19515-A	Super Seal Anti-Corrosion Compound - - 55 gal. drum
D8AZ 19515-B	Super Seal Anti-Corrosion Compound - - (12) 16 oz. aerosol spray cans
D9AZ 19515-A	Vinyl coat-abrasion resistant - - (6) 1 qt. cans
B7A 19517-B	Dusting cloth (wax treated) - - carton of (100)
D3AZ 19517-A	Dusting cloth (wax treated) - - plastic bag container
D3AZ 19517-B	Pad-buffing and polishing - - carton of (12)
E0AZ 19517-A	Dusting cloth (wax treated)-bulkroll - - 23" (584.20 mm.) wide-19 1/2 yards (17.83 meters) long -r/b E0AZ 19517-B (7/85)
E0AZ 19517-B	Dusting cloth (wax treated)-bulk roll - - 15" wide x 90 ft. long
D4AZ 19B519-A *YN-1-A	Refrigerant (air conditioner) - - (12) 14 oz. cans
D2AZ 19523-A	Hand cleaner-waterless - - (12) 14 oz. cans
D2AZ 19523-B	Hand cleaner-waterless - - (2) 5 lb. cans
D5AZ 19523-PBK	Hand cleaner-waterless - - (8) 5 lb. cans-includes dispenser
C8AZ 19C544-B	Gas line anti-freeze - - (24) 12 oz. containers
C9AZ 19C544-A	Engine starting fluid - - (12) 8.3 oz. aerosol cans
D8AZ 19562-A	Compound-heated backlite grid repair - - .12 oz. bottle
C9AZ 19577-B *YN-2	Refrigerant compressor oil-used w/York or Tecumseh compressor - - 1 qt. can
D1VY 19577-B *YN-4	Refrigerant compressor oil-use w/ Frigidaire compressors - - 1 qt. can
D9AZ 19579-A	Carburetor and combustion chamber cleaner-for gasoline engines only - - (12) 18 oz. aerosol cans
D9AZ 19579-B	Carburetor and combustion chamber cleaner-for gasoline engines only - - (12) 16 oz. cans
E6AZ 19579-B	Cleaner-metal brake parts-for use only for off-vehicle cleaning of metal brake parts. Do not use on rubber parts or brake pads or linings or painted surfaces - - 16 oz. (454g) aerosol can w/5" extension nozzle
D8AZ 19587-A	Lock lubricant - - (12) 3.5 oz. aerosol cans w/snorkel
C6AZ 19627-A	Tape (vinyl foam)-1/8" x 7/8" - - 50 ft. roll-used to shim weatherstrip roof rails, doors and convertible side rails
D4AZ 19627-A *YZ-1	Tape (A/C insulation)-1/8" x 2" - - 15 ft.
D6AZ 19627-A	Tape (pressure sensitive)-black water proof-3" wide - - 60 yd. roll

2140 CYLINDER ASSY. (BRAKE MASTER)

Δ Refer to group 2004 for contents of kit

NOTE 1- A new master cylinder with slightly different port locations and a plated reservoir was incorporated in production 4/1/74, at Wayne Assembly Plant only. If it should become necessary to install a service part master cylinder in a late-built vehicle, the outlet tubes must be reshaped to line up with the cylinder outlet ports. (Ref. TSB67, 5/3/74).

NOTE 2- Kit repairs Bendix cylinder identified with "Bendix" on housing bottom

NOTE 3- Kit repairs GPD cylinder identified with "D" stamped on side without spot-face.

NOTE 4- Gasket repair kit only.

NOTE 5- Master cylinder repair kit.

		CYLINDER ASSY.	Δ REPAIR KIT		

2140 CYLINDER ASSY. (BRAKE MASTER) — Cont'd

Δ Refer to group 2004 for contents of kit

NOTE 1- A new master cylinder with slightly different port locations and a plated reservoir was incorporated in production 4/1/74, at Wayne Assembly Plant only. If it should become necessary to install a service part master cylinder in a late-built vehicle, the outlet tubes must be reshaped to line up with the cylinder outlet ports. (Ref. TSB67, 5/3/74).

NOTE 2- Kit repairs Bendix cylinder identified with "Bendix" on housing bottom

NOTE 3- Kit repairs GPD cylinder identified with "D" stamped on side without spot-face.

NOTE 4- Gasket repair kit only.

NOTE 5- Master cylinder repair kit

NOTE 6- For vehicles built "Before 1/1/77", cap assy. D6RY 2162-A must be used. For vehicles built "From 1/1/77" cap assy. D6RY 2L414-A (fluid low level warning indicator) must be used.

3600 WHEEL ASSY. (STEERING)

HOW TO FIND STEERING WHEELS, PADS, CAPS and COVERS

To find Steering Wheel and related parts you must know:

YEAR, MODEL and COLOR

1. Identify Year and Model by referring to the Certification Label Codes as shown in the General Information Section.

2. Determine color by:
   (a) Visual identification or
   (b) Trim code (second character of trim code generally applicable to each color)

3. Refer to listing below and find the appropriate Year and Model.

4. Match Year and Model with appropriate color and/or trim code to select desired part number.

Note

● Mandatory equipment–kits are not available
◊ Not available for vehicles with BR78–14 tire size
% In addition to kit for A/C unit (1) C9PZ 8620–CK is required.
■ In addition to kit for A/C unit (1) C9PZ 8620–S belt, (1) D6DZ 3A732–A bracket, (1) 382802–S2 nut, (1) D6DZ 3A719–B hose, is required.
▲ In addition to kit for A/C unit (2) D6PZ 8620–E belts, (1) D6DZ 3A732–D bracket, (1) D6DZ 3A733–A pulley, (1) D6DZ 3C511–B support, (1) 56141–S bolt, is required.
△ In addition to kit for A/C units–(1) D7DZ 3C511–B bracket, (1) D7DZ 3A719–D hose, (1) D6DZ 3A732–A bracket, (2) 55738–S2 nut, (1) 383671–S2 nut is required.
□ In addition to Kit for A/C unit (2) D6PZ 8620–C belts, (1) D6DZ 3A733–A pulley, is required.
ϕ In addition to kit for A/C unit (1) DODZ 3A732–A Bracket, (1) D6DZ 3A719–T hose is required.
$In addition to kit for A/C unit (1) DOAZ 3A733–A pulley, (HBC–V Pump) or (1) DOOZ 3A733–B (HBC–AE Pump), (1) D8DZ 3A732–B bracket,(1) D8AZ 3C510–B bracket, (1) 382802–S2 nut, (3) N800199–S bolt and (3) 381649–S2 bolts are required

4001 REAR AXLE ASSY.

HOW TO FIND REAR AXLE PARTS

1. Determine the basic number of the part.
A. Use the Illustration Index to find a detailed view of the rear axle on the unit being repaired and identify the part needed.
b. Use the Alphabetical Index.
2. Determine the axle model tag number.
The picture below shows the location of axle model identification tags.
3. Find the axle model tag number in the Identification Chart which starts on the next page and note the information given there about ratio, ring gear, type, wheel bearings, differential bearings and shaft splines.
4. Turn to the Group Number of the part needed and select the correct part, using the information on ring gear size, type, etc.

MODEL IDENTIFICATION TAG

● CODE IDENTIFICATION CHART

The chart on the following page is in alphabetical order. Axle model suffixes with numerical codes are shown where interchangeability is affected. This chart will assist in determining the application for rear axle components which are cataloged throughout Sections 40 and 46 by size, description, ratio, type of differential or reference to size of ring gear, wheel bearings and differential bearings. Abbreviations used in the "type" , "whl. brg." and "diff. brg. & cup" columns have the following meanings:

TYPE

C . . . . . Conventional–	2 pinion– non–locking
C4 . . . . Conventional–	4 pinion– non–locking
T . . . . . Traction lock–	2 pinion– locking
T4 . . . . Traction lock–	4 pinion– locking

4602 DRIVESHAFT ASSY.

Driveshafts group 4602, Universal Joints group 4635 and Slip Yoke Assy. group

chart form under group number 4602. The driveshafts and related parts are listed by model year designated by car line. The various codes designating the universal joints and slip yoke assy. are explained below. Identification charts showing the various dimensions of universal joints and slip yoke assy. appear under groups 4635 and 4841.

CODE NUMBER TO PART NUMBER LISTING–Quantity As Required

CODE NO.	PART NUMBER	DESCRIPTION	CODE NO.	PART NUMBER	DESCRIPTION
	Universal Joint Codes used throughout the chart apply to part numbers as indicated. Also refer to group 4635 for Universal Joint Identification Chart

HOW TO FIND EXHAUST SYSTEM PARTS

1. USE CAR MODEL APPLICATION

Refer to the Year–Model Index as follows:

YEAR	MODELS	SECTION	PAGE
1973	All	52.73	A
1974	All	52.74	A
1975	All	52.75	A
1976	All	52.76	A
1977	All	52.77	A
1978	All	52.78	A
1979	All	52.79	A

These symbols are used in the parts tables:

□ is used for major components. They are numbered in order from engine to end of exhaust system.

○ is used for clamps. They are marked A,B,C from front to rear.

Δ is used for brackets or hangers. They are numbered from front to rear.

2. USE STAMPED NUMBERS

Refer to Cross–Reference charts in Section 50, as follows:

NAME	GROUP NUMBER	SECTION	PAGE
Inlet extension pipe	5A212	50	4
Converter	5E212	50	4
Muffler	5230	50	6
Inlet pipe	5246	50	13
Outlet pipe	5255	50	17
Resonator	5A289	50	18

COPYRIGHT © 1986 — FORD MOTOR COMPANY — DEARBORN, MICHIGAN

3. USE SIZES

Refer to Size charts in Section 50, as follows:

NAME	GROUP NUMBER	SECTION	PAGE
Inlet extension pipe	5A212	50	4
Muffler	5230	50	9
Inlet pipe	5246	50	15
Outlet pipe	5255	50	18
Resonator	5A289	50	19

SHELL LENGTH

When two or more catalytic converters are shown for the same application and the shell length is specified, to facilitate the selection of the proper converter, use the following diagram to determine the shell length.

4. USE HANGER REPAIR KITS

Some original–equipment hangers may be repaired by universal–type replacement kits. Refer to group 5260 in Section 50, page 18 to determine which kit to use.

5. CONVERTER IDENTIFICATION

Any numbers appearing in the suffix of converter stamping number should be emitted, before using identification chart. Example (5E212–A1A) would be 5E212–AA

5E209	Refer to group 5230 Cross Reference Chart
5E210	Refer to group 5255 Cross Reference Chart
5212	Refer to group 5A289 Cross Reference Chart

5A212 PIPE (MUFFLER INLET EXTENSION)
Use the Chart below to translate the Number Stamped on the Extension Pipe to a Service Part Number.
For model application, refer to Section 50, page 3
@ Crossover Pipe

EXHAUST PARTS MODEL INDEX

How to use this index -

1. Find the car model desired.
2. Find the line which lists the engine displacement needed.
3. Select the correct page and turn to that page.

For stamped number cross-reference information and for size information, refer to Section 50, page 3.

Original equipment muffler and outlet pipe are a welded assembly. To service this assembly you must replace it with both parts (muffler and outlet pipe) used together.

Consolidated muffler and outlet pipe must be used together as a matched pair. They will not mate with original service components.

EXHAUST PARTS MODEL INDEX

How to use this index -

1. Find the car model desired.
2. Find the line which lists the engine displacement needed.
3. Select the correct page and turn to that page.

For stamped number cross-reference information and for size information, refer to Section 50, page 3.

EXHAUST PARTS MODEL INDEX

How to use this index -

1. Find the car model desired.
2. Find the line which lists the engine displacement needed.
3. Select the correct page and turn to that page.

For stamped number cross-reference information and for size information, refer to Section 50, page 3.

EXHAUST PARTS MODEL INDEX

How to use this index -

1. Find the car model desired.
2. Find the line which lists the engine displacement needed.
3. Select the correct page and turn to that page.

For stamped number cross-reference information and for size information, refer to Section 50, page 3.

EXHAUST PARTS MODEL INDEX

How to use this index -

1. Find the car model desired.
2. Find the line which lists the engine displacement needed.
3. Select the correct page and turn to that page.

For stamped number cross-reference information and for size information, refer to Section 50, page 3.

1977

EXHAUST PARTS MODEL INDEX

How to use this index -

1. Find the car model desired.
2. Find the line which lists the engine displacement needed.
3. Select the correct page and turn to that page.

For stamped number cross-reference information and for size information, refer to Section 50, page 3.

EXHAUST PARTS MODEL INDEX

How to use this index -

1. Find the car model desired.
2. Find the line which lists the engine displacement needed.
3. Select the correct page and turn to that page.

For stamped number cross-reference information and for size information, refer to Section 50, page 3.

1979

HOW TO FIND 1974/ REAR SPRING PART NUMBERS

1974/ cars with coil rear springs use a plastic identification tape on the second coil (from the top). 1974/ cars (except Capri) with leaf rear springs use a plastic identification tape, which is wrapped around the main leaf at the rear. Use the information from the identification tape to select the proper spring service part number. (See the illustration below).

Two aids are provided:

1. IDENTIFICATION CHART
Use the Identification Chart to translate the Identification Number which appears on the tape into a Service Part Number. This Chart starts on page 23.

2. CHECK LOAD CHART
Use the Check Load Chart for a summary of all springs for each car model. These springs are listed in order by model and check load (i.e., a higher check load indicates a stronger spring) to show
   1) the model on which they are used and
   2) which are the stronger springs.

1974/ Capri rear springs follow the Check Load Chart, and are listed by engine.

SPRING IDENTIFICATION TAPE

P-10952

5310 SPRING (FRONT COIL)

1973

HOW TO FIND 1973 FRONT SPRING PART NUMBERS

1) To determine Front Spring Part Number you must know:

a) YEAR
b) CAR LINE
c) BODY TYPE
d) ENGINE
e) Whether SPRING required is STANDARD or HEAVY DUTY.
f) TRANSMISSION
g) Whether the car is equipped with Air Conditioning, Power Steering, or both.
(If the car has neither air conditioning nor power steering, refer to the column called BASE).

2) Using this information, refer to the listing on the following pages.

3) Locate the appropriate Front Spring Code Number.

4) Translate the Code Number into a Service Part Number by referring to the Cross Reference listing below.

Read down to locate correct Code Number.
Read across to locate Front Spring Part Number.
(Color Identification, Normal Load, Number of Coils, Wire Diameter and Free Length are also listed).

EXAMPLE:

a) YEAR	1973
b) Car Line	MERCURY
c) Body Type	53B (N3)
d) Engine	351C
e) Spring Type	STANDARD
f) Transmission	C/M (Cruise-O-Matic)
g) Additional Equipment	P/S (Power Steering) and A/C (Air Conditioning)

Front Spring Code Number listed is 4G.
Part Number shown for Code 4G is D3AZ 5310-A

5310 SPRING (FRONT COIL)

1974/

HOW TO FIND 1974/ FRONT SPRING PART NUMBERS

1974/ cars (except Capri) use a plastic identification tape on the second coil (from the top) to aid in identifying springs. Use the information from the identification tape to select the proper spring service part number. (See the illustration below).
1979 cars will include vehicle spring identification codes on the vehicle certification label. Use this code to select the proper spring service part number from the application charts which are sequenced by spring codes within each carline.

1. IDENTIFICATION CHART

Use the Identification Chart to translate the Identification Number which appears on the tape into a Service Part Number. This Chart starts on Page 2.

2. CHECK LOAD CHART

Use the Check Load Chart for a summary of all springs for each car model. These springs are listed in order by model and check load (i.e. a higher check load indicates a stronger spring) to show–

1) the model on which they are used and
2) which are the stronger springs.

1974/78Capri front springs follow the Check Load Chart, and are listed by engines.

SPRING IDENTIFICATION TAPE

ENGINE IDENTIFICATION TAG

IN ALL INQUIRIES ALWAYS FURNISH THE COMPLETE TAG IDENTIFICATION INFORMATION

All engines for 1963/ include an engine identification tag. This tag describes C.I.D., model year, year and month of production, change level number & engine caliberation information. All engine code numbers consists of a basic number, a suffix, and in some cases a prefix. Generally the basic number is adequate for engine identification, if additional information is needed the prefix or suffix is included.

The catalog uses the change level number in the same manner as date restriction information is presently used. The change level number is advanced only when a replacing part of assembly being introduced and the old part or assembly it replaces are not completely interchangeable. These Engine Code Numbers and their designations are listed in the Engine Identification Chart which follows on Pages 3 thru 8.

1973 - "BEFORE 2/1/73"

*Except when indicated in the chart below prefixes and suffixes are for Ford Motor Company use only and do not affect engine identification.

P-4469

P4469

1973 - "FROM 2/1/73"

PULLEY IDENTIFICATION CHART

The purpose of this guide is to help determine service part numbers for crankshaft pulleys. Pulleys are identified with an engineering part number. Find the engineering number in the "Identification" column then order the number listed in the "Service Part Number" column. In some instances the service part number will have more sheaves than the original pulley, this is done to reduce the complexity of service parts.
