The third and fourth positions of the color code indicate the type of grain (thrid position) and the color (fourth position).

For example:

1CDA means Black exterior color (1C) with Levant grain full black vinyl roof (DA).

In the listing which follows the vinyl roof covers are arranged by body type and the vinyl roof cover Code as listed on the Certification Label.

"BEFORE 10/6/78"

The third and fourth position of the color code indicate the type of grain (third position) and the color (fourth position).

For example.

1CDA means Black exterior (1C) with Levant grain full Black vinyl roof (DA).

"FROM 10/6/78"

The first and second position of the vinyl roof code indicate the type of grain (first position) and the color (second position).

For example.

HD under vinyl roof code (H) means with Grande grain full Maroon/Red bright vinyl roof (D).

In listing which follows the vinyl roof covers are arranged by body type and the vinyl roof cover Code as listed on the Certification Label.

"BEFORE 10/6/78"

The third and fourth position of the color code indicate the type of grain (third position) and the color (fourth position).

For example.

1CDA means Black exterior (1C) with Levant grain full Black vinyl roof (DA).

"FROM 10/6/78"

The first and second position of the vinyl roof code indicate the type of grain (first position) and the color (second position).

For example.

HD under vinyl roof code (H) means with Grande grain full Maroon/Red bright vinyl roof (D).

In listing which follows the vinyl roof covers are arranged by body type and the vinyl roof cover Code as listed on the Certification Label.

NEW ISSUE

EXTERIOR MOULDING SECTION

THE EXTERIOR MOULDING SECTION INCLUDES ONLY THOSE ITEMS WHICH WERE AVAILABLE FOR SERVICE AT THE TIME OF PRINTING. ITEMS NOT SHOWN OR INDICATED WITH A BLACK STAR(★) IN THE CATALOG MUST BE IMPROVISED OR PROCURED LOCALLY.

For your convenience the exterior moulding illustrations have been merged with the related text information to form a combined Exterior Moulding (text and illustrations) Section.

This section includes moulding illustrations and part number information for Back End (luggage compartment, lower back panel, liftgate and tailgate), Body Side (standard, optional and protection), Door Edge Guard, Tape Stripes and Roof and Back Belt areas of the vehicle.

To simplify locating the appropriate illustration this section is arranged by years, i.e., 1973, 1974, 1975, 1976, etc. and each year is sequenced according to catalog model code i.e., A (Mercury), C (Montego), etc.

All retainer information (illustrations and part numbers) is shown in Exterior Moulding Section "R".

Refer to indexes which precede each model year to determine the correct section and page number (or row and column number in your microform transparency).

A new Certification Label has been incorporated into production for 1979 vehicles built from October 6, 1978. This label includes a three (3) digit code to identify the color of the body side mouldings.

For example: 36A black odense vinyl body side moulding.

For 1979 vehicles built before October 6, 1978 it will be necessary to refer to the vinyl roof swatches in the 1979 Salesman's Color and Upholstery Selections Guide for assistance in determining the correct moulding color.
